SPEAKER

Selma Prodanovic

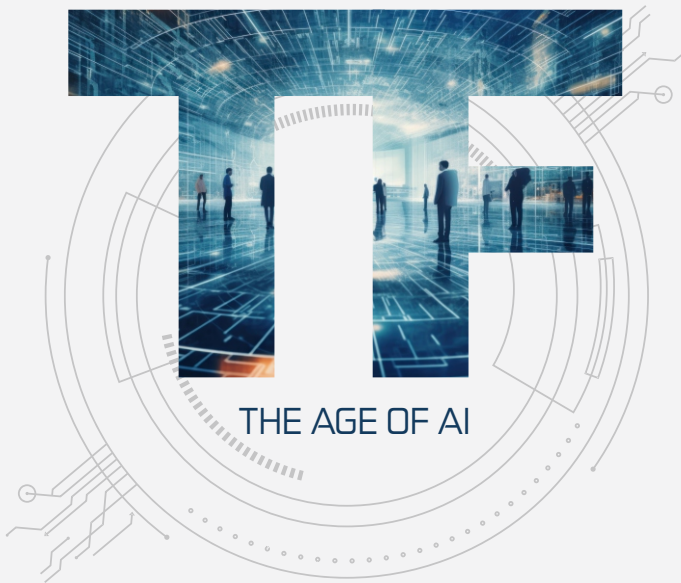

*Founder of 1MillionStartups
and Invest, Austria*

Named “Startup-Grande-Dame” by the media, Selma is a globally celebrated keynote speaker, advisor, and thought leader. In 2022 and 2023, she was recognized “Europe’s Most Influential Women in the Startup & VC Space.”

As the Vice President of EBAN and the founder of the SDG platform 1MillionStartups, Selma has been a pivotal figure in shaping the startup and angel investing ecosystem across Europe over the last two decades.

Selma initiated the EBAN “Manifesto for a Gender Balanced Angel Investing Ecosystem,” hosted the insightful “Masters of Angel Investing” interview series, and teaches entrepreneurship at various universities.

Her passion for creating a better future is evident in her constant efforts to present new ways to empower entrepreneurs and angel investors, leaving a significant imprint on the industry.

SPEAKER

Sevdalina Voynova

*Director of Programmes
at Sofia Development Association*

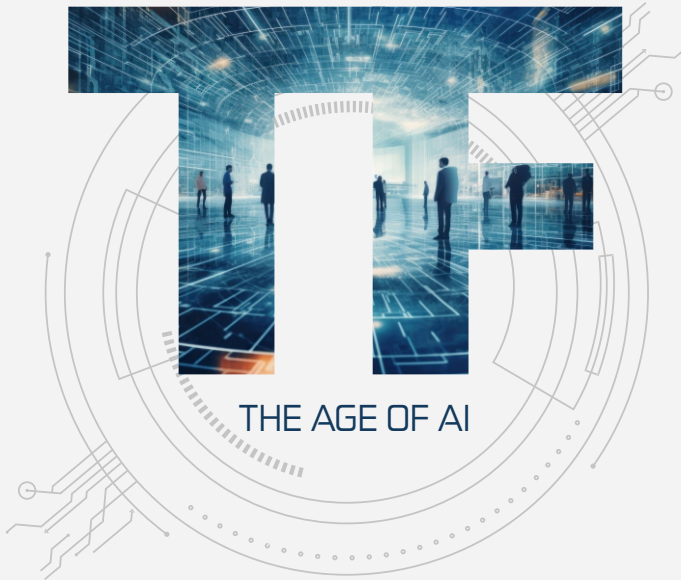

Sevdalina currently serves as the Director of Programmes at the Sofia Development Association (SDA). Established in 2010 by the Sofia Municipality, SDA has been at the forefront of urban innovations, pioneering various initiatives in Sofia. These include the inaugural innovation call for proposals, the establishment of the first public-private fund for innovation, the initiation of municipal hackathons, and the creation of the first innovation campus.

Under Sevdalina's leadership, SDA has played a pivotal role in driving the innovation performance of Sofia and the surrounding region, contributing to an impressive 8.5% increase in recent years. Notably, SDA has earned its place among the top-tier Emerging Innovators + in the European Regional Innovation Scoreboard.

Sevdalina is a co-author of the Sofia Smart Specialization Strategy and other key strategic documents, and has successfully managed numerous innovation projects. Her notable achievements include overseeing the first Bulgarian project funded by the Urban Innovative Action initiative, which introduced on-demand public transport. Additionally, she played a key role in establishing the Sofia matching public-private fund for innovations.

Prior to her role at SDA, Sevdalina held positions at the American Chamber of Commerce in Bulgaria and served as the country director of the National Democratic Institute for Bulgaria.

Educationally, Sevdalina holds an MA from Sofia University and Oxford University, along with a BA in communications. On a personal note, she is married and has two daughters.

SPEAKER

Dr. Dimitrios Tsitsamis

*Head of the Innovation Department
at ThPA S.A. Port of Thessaloniki*

Dr. Dimitrios Tsitsamis is an accomplished professional highly experienced in the maritime industry. Currently, he holds the position of Head of the Innovation Department at ThPA S.A. Port of Thessaloniki, where his role is pivotal in driving innovation and transformative achievements within the organization.

Throughout his career, he has actively participated in national and European research projects and evaluation programs, contributing to the advancement of the industry. He has also delivered lectures and published research papers on various topics related to container terminal operations and management.

A recognized leader in the field, elected as President of the Greek Association of Supply Chain Management (EEL.BE) for 2024-2025. He is passionate about innovation, education and fostering collaboration. He holds a Ph.D. with a focus on port Logistics in container terminal operations. His educational background includes a Master of Science in Computer Engineering from Manhattan College of New York and a Bachelor of Engineering in Electrical Engineering from City College of New York.

He has fortified his knowledge and skills through certifications in change management and a multitude of advanced training programs.

Innovation for Society Awards (IFS 2024)

The One Stop Liaison Office, serving as the innovation support mechanism of the Region of Central Macedonia, is collaboratively coordinating the execution of an additional Open Innovation policy within the region, titled the Innovation for Society Awards (IFS).

Vision & Goals

The IFS initiative represents a continuation of prior successful endeavors and aims to establish itself as an annual flagship program, contributing significantly to the positioning of Central Macedonia as a regional leader in Southeast Europe.

The Region of Central Macedonia is deeply committed to fostering advancements in technology, innovation, and entrepreneurship, recognizing their profound

impact on both our economic productivity and societal well-being.

This initiative is spearheaded by the Region of Central Macedonia (One Stop Liaison Office), is co-organized by esteemed partners including SEVE (Greek Exporters Association), SBE (Federation of Industries of Greece), ThessINTEC (Thessaloniki Innovation & Technology Center), AAA (Architectural Aluminum Academy), AHK (Hellenic German Chamber), and Technology Forum.

Additionally, IFS enjoys robust support from the regional ecosystem, with backing from AZK, AUTH, CERTH, UoM, IHU, I4G, Kinisis Ventures, and Beyond Expo. The official launch of IFS 2024 will take place at the I. Vellidis conference center, as part of the Technology Forum, on April 25, 2024.
